	Examiner Victor X. Nguyen	Art Unit 3734	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 33,34,51,53 and 62-64 are rejected under 35 U.S.C. 102(b) as being anticipated by Ressemann et al (5,540,707).
3. Ressemann et al disclose in figures 14 and 17, an embolus removal apparatus 16 disposed on an inner tube 94 which is housed within an outer tube 188, where an embolectomy catheter is advanceable over a guidewire 42, and where the embolus removal apparatus is configured to expand automatically from the collapsed configuration to a deployed configuration upon the axial retraction of the outer tube (fig. 17), where the embolus removal apparatus comprises a plurality of helical resilient wires 102 having proximal ends that fixed to the inner tube, and where the distal ends are configured to slide freely over the inner tube, and where the resilient wires are attached to a collar 322 which is slidably mounted on the inner tube.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 52 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ressemann, et al-707 in view of Cohen, et al-5167239.

6. Ressemann, et al disclose the invention as claimed with the exception of a plurality of infusion ports. However, Cohen discloses that infusion ports (figures 2, 5) were known at the time of the invention. Therefore, it would have been obvious to have provided Ressemann with infusion ports as this would allow the ports to be used to infuse medications during use.

Response to Arguments

7. Applicant's arguments with respect to claims 33-34,51-53 and 62-64 have been considered but are moot in view of the new ground(s) of rejection. Applicant is asked to please refer to the modified prior art rejection above where examiner addresses applicant's concerns regarding the new limitations.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3734

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
